We are excited to invite you to our California Friendly Landscape Classes

Free Residential Landscape Classes !

Are you eager to spruce up your gardens with California friendly or native drought tolerant plants? Having trouble with your irrigation system and need some advice?

Mark your calendars to attend our California Friendly Landscape Workshop series.

Landscape Design (January 18, 2014) - There are many reasons to consider a shift in landscaping practices, from the water intensive lawns, often requiring pesticides and synthetic fertilizers, to beautiful and beneficial plants well adapted to our lovely Mediterranean coastal climate.

Soils, Fertilizers & Plants (February 22, 2014) - By drawing on rich California native drought tolerant plants and California friendly plant life, we can design and create enchanting gardens that are multi-functional, supportive of the regions biodiversity and adapted to our climate. Understand our soils and the proper use of fertilizers to grow healthy plants.

Irrigation Systems, Watering & Garden Maintenance (March 15, 2014) - Learn about the different types of installation and maintenance of irrigation systems, and general garden maintenance.

Classes hosted by the
City of Huntington Beach
Public Works
Water Conservation

located at :
19001 Huntington Street
H.B., CA 92648
9:00 a.m. to Noon
