We are excited to invite you to our California Friendly Landscape Classes

Set your lawn
mower to the
highest setting.
Saves over 2,000
gallons a year!

Free Residential Landscape Classes !

Are you eager to spruce up your gardens with California friendly or native drought tolerant plants? Having trouble with your irrigation system and need some advice?

Mark your calendars to attend our

California Friendly Landscape Workshop series.

Landscape Design (June 14, 2014) - There are many reasons to consider a shift in landscaping practices, from the water intensive lawns, often requiring pesticides and synthetic fertilizers, to beautiful and beneficial plants well adapted to our lovely Mediterranean coastal climate.

Soils, Fertilizers & Plants (July 12, 2014) - By drawing on rich California native drought tolerant plants and California friendly plant life, we can design and create enchanting gardens that are multi-functional, supportive of the regions biodiversity and adapted to our climate. Understand our soils and the proper use of fertilizers to grow healthy plants.

Irrigation Systems, Watering & Garden Maintenance (August 9, 2014) - Learn about the different types of installation and maintenance of irrigation systems, and general garden maintenance.

**Classes hosted by the
City of Huntington Beach
Public Works
Water Conservation**

located at :
19001 Huntington Street
H.B., CA 92648
9:00 a.m. to Noon

To register log on to:
