**Pre-Project Waste Diversion Plan (non-shaded portion).** Indicate diversion method with an 'X' in appropriate column along with the name of vendor/facility. Calculate anticipated diversion and landfill percentage of each material type. If you are sending mixed construction debris to a transfer station for sorting, enter the same destination for all materials in the mix. List deconstructed items for reuse on-site (donated / sold), on the next page. Include the approximate weight in the column for reusable items.

**Post-Project Waste Diversion Report (shaded portion).** Enter actual weight in pounds for each category. Calculate weight column total and diversion rate. Keep all receipts for final report.

If applicant is using **Green Halo** online tracking system, this worksheet (including Waste Diversion Plan & Waste Diversion Report) is NOT REQUIRED! Green Halo offers a free web-based Waste Management Plan and Project Tracking System which can be found by visiting <https://www.greenhalosystems.com>.
