

TO: Honorable Mayor and City Councilmembers
FROM: Joan L. Flynn, City Clerk *JLF/rl*
DATE: 5/03/2013
SUBJECT: SUPPLEMENTAL COMMUNICATION FOR THE MAY 8, 2013, REGULAR CITY COUNCIL MEETING

Attached is Supplemental Communication to the City Council (received after distribution of the Agenda Packet):

#1. Communication submitted by Mayor Connie Boardman, a letter to the California Coastal Commission regarding the Poseidon Seawater Desalination Plant dated May 6, 2013.

Hi Joan,

I am submitting this revised letter as the letter I would like the City Council to discuss sending to the California Coastal Commission as part of my H item. This letter will be the one I ask the council to consider, not the more detailed letter I originally submitted with the H-item at our agenda review meeting.

Thanks,

Connie Boardman

Mayor, City of Huntington Beach

May 6, 2013

California Coastal Commission
45 Fremont Street, Suite 2000
San Francisco, CA 94105

Dear Commissioners:

In 2010, the Huntington Beach City Council approved the Coastal Development Permit No. 10-014, conditionally approving the "Poseidon Seawater Desalination Project" (Poseidon CDP).

The city's approval of the Poseidon CDP was appealed by several organizations, as well as Commissioners Wan and Mirkarimi.

I have been authorized by the Huntington Beach City Council to communicate to you that the current Huntington Beach City Council does not support the project as it is currently presented.

We are requesting that the California Coastal Commission deny the Coastal Development Permit for the Poseidon desalination project in Huntington Beach when this issue comes before the Commission.

Sincerely,

Connie Boardman
Mayor
City of Huntington Beach
