Communication submitted by Jim B. Engle, Director of Community Services, dated June 2, 2008, and titled *Community Development Block Grant (CDBG) Program Recommendation*.

E-1

**(City Council/Redevelopment Agency) Study Session Held — Joint Meeting of the Citizen Participation Advisory Board (CPAB) and City Council To Review Recommendations for the 2008/09 Action Plan for the Community Development Block Grant (CDBG) and HOME Investment Partnership Program (HOME) Provided by the Department of Housing and Urban Development (HUD)**

Interim City Administrator Paul Emery called on Stanley Smalewitz, Economic Development Director who thanked Council and Citizen Participation Advisory Board (CPAB) members for being present, and briefly discussed CPAB's participation in the Community Development Block Grant (CDBG) process. He called on Carol Runzel, Senior Administrative Analyst, who introduced Richard Lara, CPAB Chair, who gave a brief overview of the committee's work and publicly thanked Rick Campbell, CPAB Vice-Chair, for chairing the recent CPAB meetings during Chair Lara's recent month-long absence. Member R. Campbell briefly discussed challenges faced while developing funding recommendations for Council's consideration.

Analyst Runzel provided a PowerPoint report, which included the following information: Consolidated Plan including CDBG and HOME Program, the CPAB's process of two public hearings, CDBG applicant presentations and recommendations, recommendations for administration and non-public service projects, public service projects, the 2008/09 allocation for HOME Program and Action Plan.

Janeen Laundenback, City of Huntington Beach Superintendent of Recreation, Human, and Cultural Services, informed Council that due to a recent staff change in the Senior Outreach Program, Community Services will require only \$42,154 out of the \$49,320 requested from CDBG for this upcoming year. She stated that the difference of 7,166 could be allocated to another public service program seeking funding for FY 2008/09. Analyst Runzel advised Council that CPAB will take that into consideration at its next meeting.

Councilmember Green asked for clarification of services provided by the Society of St. Vincent de Paul - Friends Outside/Lights on Program and American Family Housing. Analyst Runzel explained that the Society of St. Vincent de Paul provides services for long-term inmates who are released from Santa Ana Jail in the middle of the night and have no where to go. She stated that the American Family Housing allocation funds the utility and maintenance operating costs for the homeless shelter.

Councilmember Green also inquired about financial impacts of the allocation for the Community Care Health Center (CCHC) due to their recent merger with a Los Angeles-based provider. Analyst Runzel indicated that staff had been notified by AltaMed Health Services Corporation of their recent merger with CCHC, but that services provided to our local community would remain the same. Councilmember Green stated her preference for the City to allocate funds to agencies that assure our dollars stay in Huntington Beach/County of Orange.

Councilmember Coerper voiced agreement with Councilmember Green's concerns pertaining to CCHC, and asked staff to further investigate the merger and confirm with Council that the City's funds remain in Huntington Beach. He inquired about the proposed reduction in this year's budget for Community Services Programs, Inc., (CSP). Analyst Runzel explained that the reduced allocation for CSP was due to the overall reduction in the CDBG grant and the reduced amount for public services (15% cap). She also noted that with the release of funds announced tonight by Community Services, the CPAB will again look at those agencies who received cuts in funding.

Councilmember Carchio asked staff for assurance that City funds allocated for CCHC would remain in Huntington Beach. He asked for clarification of the \$53,000 allocation for the Oakview Community Center's Children's Bureau. Superintendent Laudenback advised Council that the allocation is designated by the City's contract with the Children's Bureau to operate the Community Center, and discussed benefits gained by the City and community through this relationship.

Mayor Pro Tem Bohr acknowledged that questions raised by Council regarding CCHC were understandable, but he identified CCHC's seven-digit operating budget for which, he believes, every dollar is needed. He stated confidence that their services provided to our citizens would remain the same, and believes that monitoring the programs, as suggested, would illustrate that.

Councilmember Hardy questioned if Council chose not to fully fund Project Self Sufficiency, Oakview Family Literacy or Community Services Programs, would the programs most likely be funded by the general fund or redevelopment funds. Director Smalewitz responded that redevelopment funds could not be used to fund programs, but indicated that CPAB will again look at the funding allocations and present its final recommendations at the public hearing scheduled for August 4, 2008. She thanked CPAB members for their work and suggested they prioritize the allocations to be more equal/whole using the released funds identified tonight.

Councilmember Green mentioned that a grant of \$100,000 was given to CCHC with the provision that they not merge, and after the grant was received the merge took place. She suggested that staff and CPAB take a look at possibly reducing the amount allocated to CCHC, and use those dollars to fund the other two public service agencies that were not recommended for funding this year.

Councilmember Carchio asked CPAB members why they recommended a \$5,000 reduction for Project Self Sufficiency. CPAB members responded that although it was a tough decision, the funding recommendations, as submitted, represents the fairest distribution of funds.

Mayor Cook thanked CPAB members for their hard work and commented that with the funds identified tonight for release by Community Services the remaining programs needed should financially balance.

### **Public Comments**

(The numbers following speakers' comments reflect the approximate point in time in the archived video the speaker appears at <http://www.surfcity-hb.org/government/agendas>)

**Gerald Chapman** voiced concern of the perceived lack of enforcement of the City's law pertaining to vacation rental properties. He informed Council that City law prohibits vacation rental properties of less than 30 days, and he brought with him a listing from one Internet website that advertised 46 weekly vacation rental properties in Huntington Beach. He questioned why code enforcement does not proactively monitor these properties. It is his opinion that these vacation rentals are competing with the local hotels that pay business license fees and transient occupancy tax (TOT). He urged Council to investigate this issue before it becomes an even greater problem. (33:42)

Mayor Cook asked Dr. Chapman if he would like to leave the list of rentals that he acquired from the Internet with the Council.

Councilmember Carchio asked Attorney McGrath if this issue is handled by the Police Department or Code Enforcement. Attorney McGrath indicated that these matters are typically handled by Code Enforcement and described the difficulty in proving these cases, and the significant involvement required by the neighbors. Councilmember Carchio questioned the City's responsibility to inform the public of ramifications and prohibition of vacation rentals less than 30 days.

Administrator Emery discussed that Code Enforcement has been complaint driven, working with adjacent neighbors when a problem is identified. He identified that challenges of available resources in Code Enforcement are an issue, and that he has asked Scott Hess, Planning Director, to identify the resources necessary to proactively address these concerns as part of the budgetary process, to either realign priorities or add workload to that division of the Planning Department.

**Beverly Braden**, representing City staff, announced the upcoming Huntington Beach Relay for Life in support of the American Cancer Society on June 21 and 22 at Ocean View High School. She indicated that *HB United* is the team formed by the employees, and she invited interested citizens to go online and join the team or gain more information at [www.relayforlifehb.com](http://www.relayforlifehb.com). (41:10)

**Mark Bixby** addressed the issue of campaign finance reform and stated support of keeping the status quo contribution limits at \$300, and urged Council to move forward with adopting all other non-monetary changes made to the ordinance. (43:38)

**Julie Bixby** voiced her opinion that campaign contribution limits has held the rest of the campaign finance ordinance hostage, identifying positive changes made to the ordinance that streamline the process. She stated that the unresolved issue of campaign contribution limits is holding up implementation of the ordinance for this year's election and urged Council to support the ordinance as presented this evening. (44:12)

**Steve Stafford** discussed perceived unethical practices by his Crystal Island Community Homeowner's Association and urged Council to further investigate the status of his allegations. (45:48)

**Tim Geddes**, resident of Southeast Huntington Beach, expressed hope that negotiations with the Huntington Beach City School District is proceeding smoothly for the acquisition of the LeBard School site. He addressed the issue of campaign contribution limits and urged each

Councilmember to be responsive and state their preferences for contribution limits and how their positions are supported. (47:12)

**Debbie Bent**, resident on Shetland Circle, informed Council that the home next door to her is advertised as a vacation rental property. She explained that she shares a common driveway with the home which provides the means to observe daily activities. She quoted the advertised weekly rental rates of \$10,000/week for up to 16-20 persons, and provided an illustrative packet to Council. She described the home as a "party home" that is advertised on several Internet websites, and told Council that she has talked with the property owner about her concerns, but he has denied her allegations/findings. She explained that the neighborhood has become a chaotic mess with an abundance of people, cars, traffic, parking issues, loud music, late night spa parties, and overflowed trash bins with alcoholic beverage containers. She advised Council of the conversations she's had with several of the rental tenants, and spoke of one incident during which her home's window was broken. She urged Council to investigate this matter. (48:52)

**Stephanie Babkow**, Seaview Little League and Save Our Diamonds, advised Council that there are many community members seeking Council support to acquire the LeBard School fields to maintain Seaview Little League fields. She distributed booklets to Council made by many of the Seaview Little League baseball players, illustrating what Seaview Little League means to them. She thanked Council for their continuous efforts to negotiate in good faith with the City School District to save LeBard fields. (52:19)

Mayor Cook thanked speaker Babkow and assured her that the City is doing everything in its power to be successful in acquiring the site.

**Riley Mailman**, thanked Council for their supportive efforts to build a new skateboard park in Huntington Beach. He also announced that the Huntington Beach Skate Park Association currently anticipates hosting a barbeque at Lake Park on June 21st, including raffle drawings of donated prizes. He stated that the goal is to show the community how many skateboarders there are in the City, and how much they care about the community. (53:41)

**Norm Westwell** voiced support of political action committee (PAC) rights to raise unlimited funds to support candidates, and stated his opinion that grassroots candidates enjoy that same right. He stated that philosophically he supports no limits on campaign contributions and urged Council to support raising contribution limits to \$750 or greater. (54:59)

**Allen Baylis**, resident of Huntington Beach, discussed several issues: He advised Council that he was unable to find a code or ordinance that prohibits vacation rental properties, but identified the code section for "nuisance" (noise or disorderly behavior) which authorizes the City Administrator to abate a nuisance situation under abatement procedures; he asked Council to discontinue any further moral legislation (i.e., "In God We Trust,") and instead embrace the community's diversity; and he recommended that Council not pass more laws for citizen conformity and maintain a responsible City government that respects the rights of the people. (57:39)

**Steve Olim**, resident of Huntington Beach, informed Council that he reviewed the online videotape of the Council meeting of April 7, at which time discussion ensued regarding the display of the motto, "In God We Trust." He noted that ten persons spoke against displaying the motto, and two persons spoke in support, and questioned why four Councilmembers would vote

to support display of the motto. He stated his belief that democracy is ruled by the majority as long as the rights of the minority are not "trampled on." He indicated that there is no need to offend anyone since there are many neutral mottos or patriotic slogans for Council's consideration. He believes this issue needs to be resolved in favor of everyone in this City by instituting a slogan that is offensive to no one. He distributed an article that he recently wrote for the Huntington Beach Independent, discussed subsequent support he has received, and urged Council to reconsider this issue. (1:00:30)

**Don McGee** voiced his opinion of perceived deceit when the applause on the local telecast is cut off mid-stream after speakers have addressed the Council; the perceived costly and difficult-to-read entry node signs to our City; and his frustration with government capitalism. (1:03:48)

Typical costs include, but are not limited to, installation of signs, curb markings, staff time to issue permits, and administrative costs to create the district.

Councilmember Carchio pulled this item from the Consent Calendar and questioned the need for the proposed parking district formation, commenting that it appears that homeowners on Shields Drive have ample garage and street parking. Administrator Emery discussed the overflow parking that occurs by tenants in an apartment complex off an arterial street that utilizes Shields Drive for overnight parking. Councilmember Carchio questioned whether the City would enhance the problem by implementing this policy. Administrator Emery explained the City's petition process used throughout the City to form permit parking districts, indicating that this neighborhood had requested the parking district formation. Councilmember Carchio asked if the stated installation fee of \$800 was a one-time charge and Administrator Emery confirmed.

Councilmember Hardy expressed empathy of homeowners' concerns regarding guests who are not invested in the neighborhood who entertain late night visitors and cause disruption.

Mayor Cook asked Administrator Emery if the residents agreed to this, and he replied that the petition represented 83% of the residents and reminded Council that there currently is restricted parking between 12:00 AM and 6:00 AM.

The Centennial Celebration Committee is developing a sponsorship package and soliciting donations to pay for the Centennial events and Rose Parade Float.

Councilmember Carchio pulled this item from the Consent Calendar to inquire if the Tournament of Roses would allow the City to advertise and market their logo. Laurie Payne, Community Relations Officer, discussed allowable uses of the logo subject to restrictive approval by the Tournament of Roses, excluding any items for which the City could derive profit.

A motion was made by Carchio, second Coerper to **1) Accept the recommendation of the Centennial Celebration Committee to select Festival Artists for the Rose Parade Float; and 2) Authorize the City Administrator to develop a purchase order, not to exceed \$200,000, with the float builder in accordance with the attached scope of work.** The motion carried by the following roll call vote:

He discussed proposed Options A and B under Compensation in the License Agreement, stating his initial support of Option B. Officer Payne indicated why both options are being proposed and called on Tina Viray, owner of Surf City Store, to further describe the methodology of obtaining products in the proposed two manners. Councilmember Carchio pulled this item from the Consent Calendar and questioned the necessity of the proposed contract. Stanley Smalewitz, Economic Development Director, explained that the proposal is part of the Council's Strategic Plan Goal of enhancing the community as a tourist destination. He added that during the Downtown Specific Plan process, staff identified specific tasks that had not been developed to take the destination component forward. He shared examples of other tourist destinations for which the proposed contractor has served as the tourist agency, and identified the City's goal of expanding tourism opportunities year-round. Councilmember Carchio questioned if these suggestions could be provided by the merchants, the Conference and Visitors Bureau staff, and the Business Improvement District (BID). Director Smalewitz explained that the services solicited encompass more than the downtown and Main Street and the level of marketing and economic expertise required.

A motion was made by Coerper, second Bohr to approve the **Amendment No. 1** to *Agreement between the Redevelopment Agency of the City of Huntington Beach and RRM Design Group, Inc.*, for planning and urban design services, and authorize the Chairman and Agency Clerk to execute the agreement. The amendment would increase the total contract amount by \$97,030 for a total of \$568,434. There would still, however, be a remaining contingency of \$47,140. The motion carried by the following roll call vote:

AYES: Hansen, Hardy, Bohr, Cook, Coerper, Green, and Carchio
