## Artistic Expression

Who ever invented the blunt-end scissors has one mom thankful for creative forethought as Kristen Smith cuts up for her peers during an arts and crafts workshop at the Huntington Beach Central Library. Not to be outdone, Victoria Krop lets her colleagues know exactly what she thinks of their art work during Saturday's session. Stories, games, crafts, movies and even a round in the kitchen are all offered for children in kindergarten through third grade every Saturday morning at the library. Information: (714) 848-7813.
