**SUGGESTED FINDINGS FOR PROJECTS EXEMPT FROM CEQA:**

The Zoning Administrator finds that the project will not have any significant effect on the environment and is exempt from the provisions of the California Environmental Quality Act (CEQA) pursuant to section 15303 of the CEQA Guidelines, because the project consists of construction of a small accessory structure (new wall/fence) on property developed with a single-family home.

**SUGGESTED FINDINGS FOR APPROVAL - CONDITIONAL USE PERMIT NO. 13-011:**

1. Conditional Use Permit No. 13-011 for the construction of a 5'-6" high decorative wall in lieu of the maximum allowed height of 42 in. and a 1 ft. setback in lieu of 3 ft. within the front yard setback area will not be detrimental to the general welfare of persons working or residing in the vicinity or detrimental to the value of the property and improvements in the neighborhood. The proposed wall is located on an interior lot and constructed at a height that will not pose any significant traffic or safety concerns. The proposed wall will not negatively impact the visual character of the neighborhood because of the overall design of materials and incorporation of a landscape planter in front of the wall to soften the appearance.
2. The conditional use permit will be compatible with other residential properties containing similar walls in the surrounding area in terms of setback and height. The design will be improved with a landscaped planter in front the wall that will visually soften its overall appearance and provide compatibility with the surrounding environment.
3. The proposed conditional use permit will comply with the provisions of the base district and other applicable provisions in Titles 20-25 of the Huntington Beach Zoning and Subdivision Ordinance which allows walls to exceed the 1 ft. 6 in. maximum height within 3 ft. of the front property line in the RMH-A zone subject to approval of a Conditional Use Permit.
4. The granting of the conditional use permit will not adversely affect the General Plan. It is consistent with the Land Use Element designation of RM-25-d (Residential Medium High Density – 25 du/ac—Design Overlay) on the subject property. In addition, it is consistent with the following objective and policies of the General Plan:

A. Land Use Element

Objective LU 9.2: Provide for the preservation of existing residential neighborhoods.

Policy LU 16.1.1: Accommodate development of the City's neighborhoods, boulevards, and districts according to the Community Districts and Subarea Schedules, which requires (Subarea 3b) front yard setbacks to maintain the existing residential neighborhood character.

B. Urban Design Element

Policy UD 1.1.1: Coordinate streetscape and landscape design in all residential neighborhoods to strengthen their identities.

The proposed wall will not change the residential character of the neighborhood, as there are other properties in the vicinity have similar setbacks for walls. The materials and design used to construct the proposed wall is attractive and does not negatively impact the neighborhood. Landscaping will be planted in front of the decorative wall within a 1' planter which will help soften its overall appearance. The subject property will maintain a minimum 40% landscaped area within the front yard, including a 4 ft. wide landscaped planter.

**SUGGESTED CONDITIONS OF APPROVAL - CONDITIONAL USE PERMIT NO. 13-011**

1. The site plan and elevations received and dated March 25, 2013 shall be the conceptually approved design.
2. All landscaping within the front yard setback area shall be maintained in a neat and clean manner.
3. CUP No. 13-011 shall become null and void unless exercised within two years of the date of final approval or such extension of time as may be granted by the Director pursuant to a written request submitted to the Planning Division a minimum 30 days prior to the expiration date.
4. Incorporating sustainable or "green" building practices into the design of the proposed structures and associated site improvements is highly encouraged. Sustainable building practices may include (but are not limited to) those recommended by the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) Program certification (<http://www.usgbc.org/DisplayPage.aspx?CategoryID=19>) or Build It Green's Green Building Guidelines and Rating Systems (<http://www.builditgreen.org/green-building-guidelines-rating>).

**INDEMNIFICATION AND HOLD HARMLESS CONDITION:**

The owner of the property which is the subject of this project and the project applicant if different from the property owner, and each of their heirs, successors and assigns, shall defend, indemnify and hold harmless the City of Huntington Beach and its agents, officers, and employees from any claim, action or proceedings, liability cost, including attorney's fees and costs against the City or its agents, officers or employees, to attack, set aside, void or annul any approval of the City, including but not limited to any approval granted by the City Council, Planning Commission, or Design Review Board concerning this project. The City shall promptly notify the applicant of any claim, action or proceeding and should cooperate fully in the defense thereof.
