

CHAPTER 7 Report Preparers

This Subsequent EIR was prepared by Atkins, under contract to the City of Huntington Beach. Assisting Atkins in this task was two subconsultants (Ninyo & Moore—Geotechnical Report, and Urban Crossroads—Traffic Engineering), the City of Huntington Beach staff members, and public service providers. The following agencies and persons were directly involved in the preparation of this Subsequent EIR.

It is recognized that no one individual can be an expert in all of the environmental analysis presented in this Subsequent EIR. Consequently, an interdisciplinary team, consisting of technicians and experts in various issue areas, was required to prepare and complete this study. Table 7-1 provides a list of Subsequent EIR preparers.
