**SUGGESTED FINDINGS FOR PROJECTS EXEMPT FROM CEQA:**

The Zoning Administrator finds that the project will not have any significant effect on the environment and is exempt from the provisions of the California Environmental Quality Act (CEQA) pursuant to section 15301 of the CEQA Guidelines, which exempts additions to existing structures constituting less than a 50% expansion of the existing floor area.

**SUGGESTED FINDINGS FOR APPROVAL - COASTAL DEVELOPMENT PERMIT NO. 2008-015 :**

1. Coastal Development Permit No. 2008-015 to permit an approximately 432 sq. ft. 3<sup>rd</sup> floor addition to an existing attached townhome, as proposed, conforms with the General Plan, including the Local Coastal Program Land Use designation of Residential Low-Density. The proposed project is consistent with Coastal Element Land Use Policy C 1.1.1 to encourage new development to locate within, contiguous to or in close proximity to existing developed areas able to accommodate it, since it consists of a minor addition to an existing dwelling in an existing Planned Residential Development.
2. The project is consistent with the requirements of the CZ Overlay District, the base zoning district, as well as other applicable provisions of the Municipal Code. The project complies with all applicable development regulations, including maximum building height, minimum yard setbacks, maximum site coverage and minimum on-site parking.
3. At the time of occupancy the proposed development can be provided with infrastructure in a manner that is consistent with the Local Coastal Program. The proposed addition will be constructed on a previously developed site in an urbanized area with all necessary services and infrastructure available, including water, sewer, and roadways.
4. The development conforms with the public access and public recreation policies of Chapter 3 of the California Coastal Act. The project will not impede public access or impact public views to coastal resources.

**SUGGESTED CONDITIONS OF APPROVAL - COASTAL DEVELOPMENT PERMIT NO. 2008-015:**

1. The site plan, floor plans, and elevations received and dated July 10, 2008 shall be the conceptually approved design.
2. Incorporating sustainable or “green” building practices into the design of the proposed structures and associated site improvements is highly encouraged. Sustainable building practices may include (but are not limited to) those recommended by the U.S. Green Building Council’s Leadership in Energy and Environmental Design (LEED) Program certification (<http://www.usgbc.org/DisplayPage.aspx?CategoryID=19>) or Build It Green’s Green Building Guidelines and Rating Systems (<http://www.builditgreen.org/index.cfm?fuseaction=guidelines>).
