Tess Nguyen, Associate Planner, gave the staff presentation and an overview of the project and noted a correction on the Land Use table on page 6 of the staff report.

Commissioner Livengood asked about employee parking and staff said that this project was included as part of The Strand traffic analysis and the proposed parking is in compliance with the Downtown Parking Master Plan.

Commissioner Scandura asked how the public will know that the upstairs is open to the public and staff said that a sign will be posted at ground level.

Ms. Nguyen reported that alcohol service will be provided in the bar only, but that consumption of alcoholic beverages will be allowed in the bar, on the balcony, in the dining room and on the upstairs open terrace area.

Commissioner Farley recommended that a condition of approval be added requiring a "No Alcohol Beyond This Point" sign be posted at the top of the stairs.

Mr. Farley also asked about entertainment and staff said that live entertainment and recorded music restrictions were noted on page 4 of the staff report. Planning Manager Herb Fauland also noted that limits on amplified sound speakers can be added to the conditions of approval.

Chair Shier Burnett noted that the proposed operating hours for the Lobby, Banquet Room, pre-function area, courtyard, restaurant and restaurant balcony are 5:30 AM to 2:00 AM, while the bar and bar balcony operating hours are restricted to 11:30 AM to 2:00 AM.

Sean Crume, CIM, thanked the Planning Commission and staff for coordinating and participating in the site tour. He further noted that CIM is concerned with potential noise levels and is planning to focus on dining, not alcohol sales. He also said that the upstairs open terrace will include public open space.

Cormac O'Modhrain, CIM, thanked the Planning Commission and staff for their time and consideration.

WITH NO ONE ELSE PRESENT TO SPEAK, THE PUBLIC HEARING WAS CLOSED.

Chair Shier Burnett asked the applicant what the hours would be on the portion of the building facing Walnut Street and the applicant said that it would be 5:30 AM to 2:00 AM.

Commissioner Delgleize asked about alcohol service and staff stated that alcohol service would be provided in the bar only and that alcoholic beverages could be consumed in the public area.

Planning Manager Herb Fauland stated that the use of public space as part of the project is included in the conditions of approval, in order to balance public open space with private use. He referred the Planning Commission to Item No. 14 on the conditions of approval (attachment 1.4), which states that occasional special events on the 1,426 sq. ft. public open terrace shall be subject to prior review and approval by the Planning Department.

Commissioner Farley said that the use would be a mix of public open space and private space and asked how the public will know that the public open space is available for their use.

Commissioner Farley also requested that condition of approval No. 8 be amended to include the phrase "and amplified sound", so that the condition reads "The applicant shall ensure that entertainment and amplified sound provided is not audible beyond 50 feet from the exterior walls of the business in any direction."

Commissioner Scandura asked if there would be any food or alcohol service provided in the terrace area and staff said no. Scandura also said that he thinks more control is needed over the public open terrace area.

Police Captain Chuck Thomas directed the Planning Commission to condition of approval No. 9, which states, "The applicant shall not make or allow to be made any noise which continues for more than a five minute period between the hours of 10:00 PM and 7:00 AM if such noise is audible for fifty feet or more from the source of the noise."

Chair Shier Burnett noted that the distance between The Strand and residents on Walnut Street is approximately 50'.

Commissioner Scandura inquired about operating hours and staff directed him to page 4 of the staff report.

Chair Shier Burnett inquired if an annual review is scheduled for this project and Planning Manager Herb Fauland said no.

Chair Shier Burnett also asked about the décor on the terrace and balcony. Staff noted that condition of approval No. 13 requires that the décor and furnishings will be different in the two areas to separate the restaurant/bar patio dining area from the public open space terrace. Chair Shier Burnett recommended the addition of a sign to read "Public Welcome!" to indicate that the public open space terrace is open to the public. The applicant said that they would provide and post "Public Welcome" signs.

Chair Shier Burnett also commented on condition of approval No. 14 regarding occasional special events to be held on the public open terrace. She asked if a mechanism was in place to notify the Planning Department when such events were proposed and staff said not yet.

FINDINGS AND CONDITIONS OF APPROVAL

CONDITIONAL USE PERMIT NO. 08-049
ENTITLEMENT PLAN AMENDMENT NO. 09-001

FINDINGS FOR PROJECTS EXEMPT FROM CEQA:

The Planning Commission finds that the project will not have any significant effect on the environment and is exempt from the provisions of the California Environmental Quality Act (CEQA) pursuant to section 15301, Class 1, of the CEQA Guidelines, which states that operation and minor alteration to existing structures involving negligible or no expansion are exempt from further environmental review.

FINDINGS FOR APPROVAL - CONDITIONAL USE PERMIT NO. 08-049 AND ENTITLEMENT PLAN AMENDMENT NO. 09-001:

1. Conditional Use Permit No. 08-047 and Entitlement Plan Amendment No. 09-001 for the establishment, maintenance, and operation of an in-house restaurant and bar (Zimzala Restaurant) and other facilities within the Shorebreak Hotel for on-site sale and consumption of alcoholic beverages, outdoor dining, live entertainment and dancing and the relocation of 1,757 sq. ft. of required public open space from the second level terrace to the ground level will not be detrimental to the general welfare of persons working or residing in the vicinity or detrimental to the value of the property and improvements in the neighborhood. The proposed uses will not create adverse noise or parking impacts to the surrounding businesses and residents based on the availability of parking within the existing parking structure and limitations on the location of the live entertaining. The proposed relocation of the public open space areas will not impact the enjoyment of the public of all open space areas on site.
2. The proposed restaurant, bar and other facilities within the Shorebreak Hotel with alcohol sales, outdoor dining, live entertainment and dancing will be compatible with surrounding uses. The uses will be required to comply with conditions of approval pertaining to hours of operation and location of the entertaining venues to assure that any potential impacts to the surrounding properties are minimized. The uses are subject to noise regulations to ensure compatibility with surrounding businesses and residents. In addition, the proposed uses are consistent with the intended mixed-use character of The Strand and of commercial developments in the Downtown. The proposed relocation of public open space will not impact the provision of required open space area, making the project compatible with other developments in the Downtown district.
3. The proposed restaurant, bar and other facilities within the Shorebreak Hotel will comply with the provisions of the base district and other applicable provisions in Titles 20-25 of the Huntington Beach Zoning and Subdivision Ordinance and any specific condition required for the proposed uses in the district in which they will be located. The proposed project as conditioned complies with the base district and other applicable provisions including parking. There is no physical expansion of the approved development proposed as part of the request and the uses will comply with all building occupancy/exiting requirements. In addition, the project will comply with the public open space requirements as specified in the Downtown Specific Plan.
4. The granting of the conditional use permit and entitlement plan amendment will not adversely affect the General Plan. They are consistent with the Land Use Element

designation of Mixed Use Vertical on the subject property including the following policies and objectives identified in the General Plan:

A. Land Use Element

Policy LU 4 Achieve and maintain high quality architecture, landscape, and public open space in the City.

Policy LU 4.2.4 Require that all development be designed to provide adequate space for access, parking, supporting functions, open space, and other pertinent elements.

Policy LU 7.1.1 Accommodate existing uses and new development in accordance with the Land Use and Density Schedules.

Objective LU 7.1 Accommodate the development of a balance of land uses that (a) provides for the housing, commercial, employment, cultural, entertainment, and recreation needs of existing and future residents, (b) provides employment opportunities for residents of the City and surrounding subregion, (c) captures visitor and tourist activity, and (d) provides open space and aesthetic relief from urban development.

Goal LU 11 Achieve the development of projects that enable residents to live in proximity to their jobs, commercial services, and entertainment, and reduce the need for automobile use.

The proposed use will provide a new visitor-serving commercial venue within the Downtown that is consistent with the Land Use Density Schedules for the Downtown and is compatible with surrounding mixed-use development. The provision of public open space will provide additional destination uses that would attract and complement restaurant uses and enhance the enjoyment of residents and visitors alike.

B. Coastal Element

Policy C 1 Develop a land use plan for the Coastal Zone that protects and enhances coastal resources, promotes public access and balances development with facility needs.

Policy C 3.2.3 Encourage the provision of a variety of visitor-serving commercial establishments within the Coastal Zone, including but not limited to, shops, restaurants, hotels and motels, and day spas.

The proposed use will promote the commercial viability of The Strand and will expand the available visitor-serving commercial uses within the Coastal Zone. In addition, the public open space will improve the public access to coastal views, especially from the second level terrace.
