Jane James, Senior Planner, gave a brief overview and status update on the project.

Commissioner Mantini asked staff to elaborate on the potential traffic impacts of the project. Ms. James indicated that there is a potential increase in traffic and potential change to current traffic patterns. Bob Stachelski, Transportation Manager, indicated the changes to the potential traffic impacts are not significant.

Commissioner Delgleize asked for more details on the original traffic study. Ms. James stated that the original traffic study was completed in late 2007. Mary Beth Broeren, Planning Manager, noted that the potential impacts of the proposed project are less intense than the potential traffic impacts identified in the original traffic study.

Chair Farley asked staff to explain the differences in development standards between Area A and Area B. Ms. James indicated that the development standards are consistent with the previously established standards and the primary difference is the change to the sizes of Area A and Area B.

Chair Farley asked staff to explain the change in open space calculations. Ms. James indicated that the change is in how the open space is measured and where it is located but not in the actual amount of open space. Ms. James noted that there is common residential open space but that there is not a requirement in the specific plan for public open space.

Vice-Chair Speaker asked if the height limit for the area will be adjusted to meet the standard 35 foot limit for the City. Ms. Broeren stated that there are no proposed changes to the current standards but noted that Sunset Beach does have a 35 foot height limit and that some variances had been granted.

Ms. Broeren briefly discussed the process for accessing the county records and the various implementation issues.

Chair Farley asked staff if the limited parking is a potential problem for certification with the Coastal Commission. Ms. Broeren stated that staff had spoken with the Orange County Supervisor for the Coastal Commission and that there are no expectations that the annexation process would involve perfecting any issues in the existing specific plan.

Chair Farley asked if there were any intentions to institute a planned sign program. Ms. Broeren stated that there may be a planned sign program proposal.
