FIRE DEPARTMENT

Open House

On Saturday, October 15, the Fire Department celebrated its annual Fire Prevention Week at Gothard Fire Station. There were more than 800 guests in attendance. The theme of the event was “Don’t Wait - Check the Date” — a reminder to replace Smoke Alarms every 10 years.

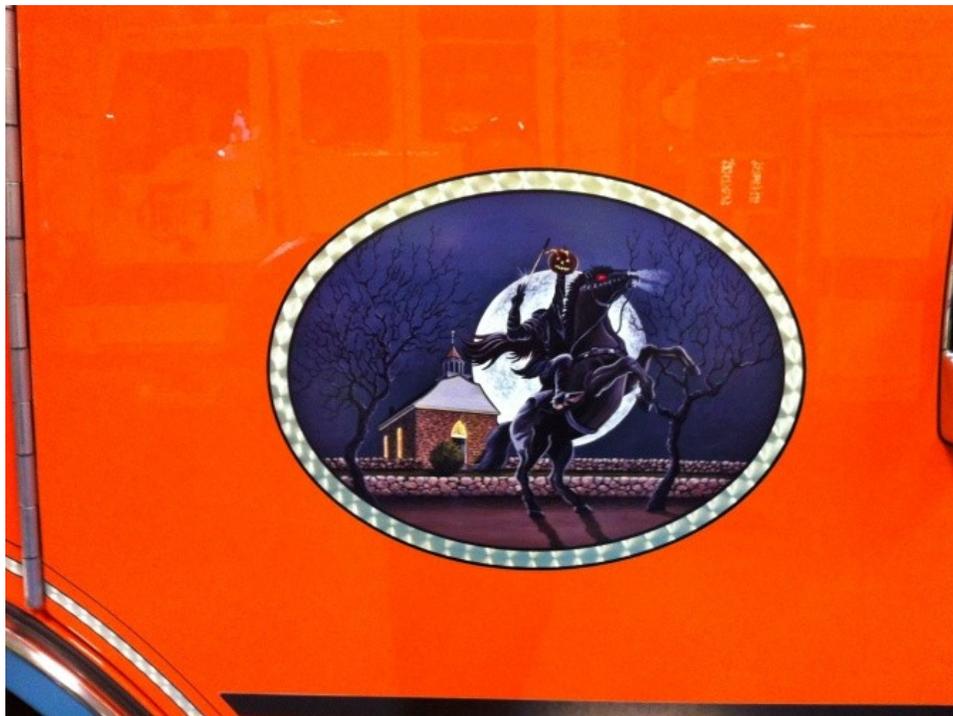

FIRE DEPARTMENT

Towards the Unusual ~ Happy Halloween

The Sleepy Hollow Fire Department (SHFD) is the municipal fire department for the Village of Sleepy Hollow in the County of Westchester, State of New York. The Village has a total area of 5.1 square miles, of which, 2.3 square miles is land and 2.8 square miles is the waters of the Hudson River. Sleepy Hollow's fire patrol and emergency rescue squad was organized on May 26, 1876. The Sleepy Hollow Fire Department consists of five fire companies, each operating an individual piece of fire apparatus, a marine unit, and a junior corps program. The fleet consists of three engines, one tower ladder, one rescue, two boats, and three Chief vehicles.

The Department provides the following services: fire suppression, vehicle extrication, surface water rescue, ice rescue, rapid intervention team, and any emergency where its response is deemed appropriate.

Don't Wait — Check the Date!

Replace Smoke Alarms Every 10 Years

**Fire Prevention Week
Oct. 9-15, 2016**

Age matters when it comes to your smoke alarms.
Check the manufacture dates on your smoke alarms today!

<p>1 Remove the smoke alarm from the wall or ceiling.</p>			<p>2 Look at the back of the alarm for the date of manufacture.</p>
<p>3 Smoke alarms should be replaced 10 years from the date of manufacture.</p>			<p>4 Put the alarm back on the ceiling or wall if it is less than 10 years old.</p>

A closed door may slow the spread of smoke, heat and fire.

Test smoke alarms at least once a month by pushing the test button.

If the smoke alarm sounds, get outside and stay outside. Go to your outside meeting place.

Install smoke alarms in every bedroom, outside each separate sleeping area, and on every level of the home, including the basement. Larger homes may need more alarms. For the best protection, make sure all smoke alarms are interconnected. When one sounds, they all sound.

Call the fire department from a cellphone or a neighbor's phone. Stay outside until the fire department says it's safe to go back inside.

For more information about smoke alarms, visit usfa.fema.gov and firepreventionweek.org.
