The City of
Huntington Beach

**ENVIRONMENTAL
BOARD**

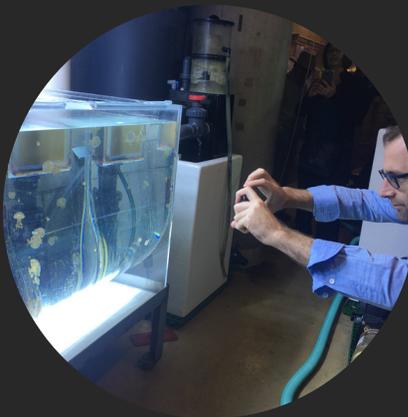

Environmental Board

is a volunteer board consisting of nine (9) residents appointed by the City Council. The Environmental Board is empowered and has the duty to:

- (a) Study the environment of the City of Huntington Beach and investigate all actual and potential threats to a clean environment for the City and its inhabitants;
- (b) Report to the City Council, and to other city boards, commissions, departments and officers its recommendations for legislation and other action that could or might curtail or limit those activities which appear to be an actual present threat, or which may become a potential threat in the future, to the assurance of a clean, healthy, desirable environment for the City and its inhabitants;
- (c) Advise the City Council and staff on sustainability challenges and opportunities to enhance the overall sustainability, economic, ecological and social environments of Huntington Beach.
- (d) Perform such other duties as may from time to time be properly assigned or delegated to it by the City Council.

Activities Include

- Support the City's evolving environmental goals and sustainability programs while providing awareness through educational and advisory projects.
- Assist with the City's programs like the Sustainable Business Certification program by reducing the consumption of water and energy, recycling and waste diversion and promoting sustainable energy practices.
- Review development plans and Environmental Impact Reports with City Staff to promote sustainability and a healthy community.

The Environmental Board addresses sustainability issues in an effort to enhance the overall economic, ecological, and social aspects of our City.
