**SUGGESTED FINDINGS FOR PROJECTS EXEMPT FROM CEQA:**

The Zoning Administrator finds that the project will not have any significant effect on the environment and is exempt from the provisions of the California Environmental Quality Act (CEQA) pursuant to section 15301 of the CEQA Guidelines, because the project involves negligible or no expansion of an existing use.

**SUGGESTED FINDINGS FOR APPROVAL - CONDITIONAL USE PERMIT NO. 2008-027:**

1. Conditional Use Permit No. 2008-027 for the establishment, maintenance and operation of a commercial recreation and personal enrichment establishment consisting of a children's activity center containing up to nine (9) large inflatable attractions (i.e. bounce houses) for play groups, development classes, and private birthday parties within an existing 10,632 sq. ft. industrial unit will not be detrimental to the general welfare of persons working or residing in the vicinity or detrimental to the value of the property and improvements in the neighborhood. The proposed use will not create any significant noise or impact at levels inconsistent with the industrial zoning applicable to the subject property. All business activities will be conducted within the interior of the building and by reservation only. The organized play groups and development classes will occur between the hours of 9 AM and 2 PM Monday through Friday, and will be limited to 16 participants. These morning activities will not overlap or occur concurrently. The private parties will occur between the hours of 2 PM and 10 PM Monday through Friday, and between the hours of 9 AM and 10 PM on Saturday and Sunday. Based on data obtained from existing activity centers, the site has adequate parking for the use. The use will be consistent with the parking requirements for manufacturing uses, 1 space per 500 sq. ft. Furthermore, the highest demand for parking will occur on evenings and weekends, when most of the surrounding businesses are closed.
2. The conditional use permit will be compatible with surrounding uses because the children's activity and instructional center will be conducted wholly within the unit. The business will operate by scheduled reservations daily. The highest demand for parties will occur at times when most of the surrounding businesses are closed. Furthermore, scheduled personal enrichment activities that occur will be limited to 16 participants, which will not impact parking. Potential noise impacts would be negligible since the unit is surrounded by industrial uses, which usually generate greater noise levels.
3. The proposed conditional use permit will comply with the provisions of the base district and other applicable provisions in Titles 20-25 of the Huntington Beach Zoning and Subdivision Ordinance (HBZSO). The HBZSO authorizes commercial recreation and entertainment uses including children's activity centers in the IL (Industrial Limited) zone, subject to approval of a conditional use permit. In addition, the conditional use permit will comply with any specific condition required for the proposed use in the district in which it would be located.
4. The granting of the conditional use permit will not adversely affect the General Plan. It is consistent with the Land Use Element designation of Industrial on the subject property. In addition, it is consistent with the following goals and policies of the General Plan:

RCS 1: Enrich the quality of life for all citizens of Huntington Beach by providing constructive and creative leisure opportunities.

RCS 1.1: Encourage recreational opportunities unique to Huntington Beach, which will enhance visitation and economic development.

LU 12.1: Provide for the continuation of existing and the development of additional industrial uses that capitalize upon the existing and emerging types of industries, offer opportunities for the clustering of key economic sectors, and maintain the character and quality of the City.

The proposed use provides creative recreational activities for children and families. The indoor recreational use will add to the diversity of entertainment uses offered in the City. The industrial building provides sufficient space to be occupied by the proposed type of commercial and recreation use. Other existing activity centers are primarily located in industrial areas and maintain similar characteristics of permitted industrial uses.
