**FINDINGS FOR PROJECTS EXEMPT FROM CEQA:**

The Zoning Administrator finds that the project will not have any significant effect on the environment and is exempt from the provisions of the California Environmental Quality Act (CEQA) pursuant to section 15301 of the CEQA Guidelines, because the project consists of interior alterations with negligible expansion of an existing use.

**FINDINGS FOR APPROVAL - CONDITIONAL USE PERMIT NO. 15-016:**

1. Conditional Use Permit No. 15-016 to permit (a) sales, service and consumption of alcoholic beverages (full service – ABC Type 47 License) and (b) live entertainment consisting of disc jockey, karaoke, and live bands, within a 3,836 sq. ft. restaurant suite will not be detrimental to the general welfare of persons working or residing in the vicinity or detrimental to the value of the property and improvements in the neighborhood. The proposed use is ancillary to an existing restaurant business that currently only serves beer and wine for consumption. It will primarily occur within the interior of the building, except for alcohol service and consumption extending into a future 371 sq. ft. outdoor dining area located in front of the building and oriented towards Pacific Coast Highway, away from residential uses. The outdoor dining area may only be constructed and utilized with reconfiguration of the parking lot that will provide safe and adequate pedestrian access in front of the building. Hours of operation for the use are consistent with other commercial uses in the center. As conditioned, doors into the restaurant will remain closed during live entertainment hours to minimize potential noise impacts. Prior to commencement of live entertainment, a sound survey is required to demonstrate that the proposed entertainment will operate in compliance with the City's Noise Ordinance. The use is not anticipated to generate additional noise, traffic, or parking impacts detrimental to the surrounding properties. Live entertainment and the sale of (full service) alcohol for onsite consumption will contribute to the viability of the restaurant by attracting customers and generating lease revenue, thus improving the value of property in the neighborhood.

2. The conditional use permit will be compatible with surrounding uses because it will operate ancillary to a restaurant use and activities will primarily occur within the interior of the building. Although alcohol consumption is also proposed within an outdoor dining area, outdoor dining will not be permitted between the hours of 10:00 p.m. and 7:00 a.m. to minimize potential noise and safety impacts during late night/early times. The restaurant is located within an existing multi-tenant commercial center and consistent with adjacent commercial uses, which serve nearby residents and visitors. Residential uses are located adjacent to the west and north of the site. The closest residential dwelling is approximately 70 feet from the subject building and is separated by an existing six-foot high block wall, driveway, and carports. The restaurant's entrance doors are oriented to the parking lot and Pacific Coast Highway and away from the residential uses. Prior to commencement of live entertainment, a sound survey is required to demonstrate that the proposed entertainment will operate in compliance with the City's Noise Ordinance. Live entertainment is proposed not to operate past 12:00 a.m. (midnight) consistent with the restaurant use and other commercial uses in the center. The use will be subject to noise regulations to ensure compatibility with surrounding uses.
3. The proposed conditional use permit will comply with the provisions of the base district and other applicable provisions in Titles 20-25 of the Huntington Beach Zoning and Subdivision Ordinance (HBZSO) and any specific condition on the project. The HBZSO authorizes live entertainment and alcohol at the subject property, subject to approval of a conditional use permit. The restaurant with live entertainment and alcohol will be located within an existing commercial center which conforms to land use and applicable development standards.
4. The granting of the conditional use permit will not adversely affect the General Plan. It is consistent with the General Plan land use designation of Commercial Visitor and the objectives and policies of the General Plan as follows:

A. Land Use Element

Objective LU 10.1: Provide for the continuation of existing and the development of a diversity of retail and service commercial uses that are oriented to the needs of local residents, serve the surrounding region, serve visitors to the City, and capitalize on Huntington Beach's recreational resources.

Policy LU 10.1.8: Require that entertainment, drinking establishments, and other similar uses provide adequate physical and safety measures to prevent negative impacts on adjacent properties.

The proposed use is compatible with the existing commercial uses in the center such as retail and restaurants. It provides for the sales and service of alcoholic beverages and live entertainment activities within the interior of the restaurant, and alcohol consumption in the outdoor dining area. The proposed use will not generate significant impacts above existing conditions, based upon the conditions imposed on the conditional use permit and entertainment permit.

B. Economic Development Element

Policy ED 2.4.3: Encourage the expansion of the range of goods and services provided in Huntington Beach to accommodate the needs of all residents in Huntington Beach and the market place.

The project is located along a primary corridor of the City that contains existing restaurants and retail uses. The proposed use will serve to strengthen the existing business and commercial center.

C. Noise Element

Objective N 1.8: Minimize the generation of excessive noise level impacts from entertainment and restaurant/bar establishments into adjacent residential or "noise sensitive" land uses.

The proposed use will primarily occur within the interior of the restaurant, except for the outdoor dining area which will permit alcohol service and consumption. However, use of the outdoor dining area is conditioned to be prohibited between the hours of 10:00 p.m. and 7:00 a.m. to minimize potential noise and safety impacts. Additionally, doors will remain closed during entertainment hours. Hours of operation for the proposed use will not exceed restaurant hours, which close at 12:00 a.m. (midnight) consistent with other commercial uses in the center.
