

## Hood Filter Cleaning Service & Soak Tank Service Providers

Grease is the number one cause of sewer line blockages. Grease from restaurants and other food service establishments clogs the lines and blocks the flow, causing backups and sewer spills. These spills can enter the storm drain and pollute the ocean, causing beach closures.

The following is a listing of businesses in the area that provide hood filter cleaning and tank services. Please note that the City of Huntington Beach does not endorse the following contractors and their services:

### Hood Filter Cleaning

#### **Diversified Kitchen Solutions (DKS)**
