GUIDE TO ORANGE COUNTY’S HOUSEHOLD HAZARDOUS WASTE COLLECTION CENTERS

For your safety, please observe the following regulations in preparing for your visit to the HHWCC:

- Household Hazardous Waste Collection Centers can only accept waste from Orange County residents. Waste will not be accepted from businesses, churches, schools, nonprofit organizations or government agencies.
- A maximum of 15 gallons or 125 pounds may be transported per vehicle, per trip (Department of Transportation Requirement). It is illegal to exceed these limits.
- Containers larger than five gallons will not be accepted.
- Containers will NOT be returned, except for oil containers, upon request.
- Materials must be in original containers (except motor oil, fuels and antifreeze).
- All containers must have lids, be sturdy, non-leaking, labeled and protected from breakage.
- Do not combine different types of waste.

Visit the Material Exchange Program

Orange County residents can choose up to five items per week from a selection of partially used containers of household, yard and car-care products.

- Telephones & answering machines
- Televisions (CRTs & flat screens)
- Video game consoles & accessories
- Walkie-talkies

HHW COLLECTION CENTERS CANNOT ACCEPT THE FOLLOWING ITEMS

Visit www.oclandfills.com for disposal information of these items

NOTE REGARDING DISPOSAL OF EXPIRED AND UNUSED MEDICINE
Most medicines used in a home are not considered hazardous waste. They can be disposed of in the trash after being secured in durable packaging. Specific disposal instructions can be found at www.oclandfills.com. Click on Household Hazardous Waste.

What is Household Hazardous Waste?
Leftover household products that contain corrosive, toxic, ignitable, or reactive ingredients are considered to be “household hazardous waste” or “HHW.” Products, such as paints, cleaners, oils, batteries, and pesticides that contain potentially hazardous ingredients require special care when you dispose of them.

Improper disposal of household hazardous wastes can include pouring them down the drain, on the ground, into storm sewers, or in some cases putting them out with the trash. The dangers of such disposal methods might not be immediately obvious, but improper disposal of these wastes can pollute the environment and pose a threat to human health.

Additional HHW services may be available through your City. Contact your City’s Recycling Coordinator to find out other ways to dispose of your household hazardous waste items in your community.
