FEBRUARY DONATION UPDATE

The Huntington Beach Neighborhood Watch Program (HBNW) fiscal year is from July 1 to June 30 each year. We have estimated we will need approximately $24,300 this year to cover the various HBNW program expenses which include, but are not limited to, newsletter assembly, distribution costs, returned postage, mailing labels, etc. From the start of our fiscal year to now, we have received $10,143.00 in donations and newsletter advertisements- we have $14,157.00 to go by June 30, 2017. The HBNW Board thanks you and our advertisers for your support and generous donations. An $8 donation pays for each subscriber’s distribution costs; a $10 donation helps with these costs and other needed expenses and puts your name in the Newsletter as a contributor; and a $25 or more donation accomplishes the above, plus you will receive a HBNW sticker and a token of appreciation. Remember, HBNW is a non-profit organization; donations are tax deductible. As a resident of the city, we encourage you to review the HBNW program budget and expenses. We strongly suggest you sign up to receive your Newsletter either electronically or through the mail. The Newsletter has valuable crime prevention information and crime statistics. Donations are not necessary to receive the Newsletter, but if you wish to make a donation, please make your check payable to:

HUNTINGTON BEACH POLICE DEPARTMENT
RETIRED SENIOR VOLUNTEER PROGRAM

Shirley Spiegel

Thank you for the service you provided and the sacrifices you made to help keep us and your community safe.

You will be deeply missed.
The Huntington Beach Police Department and the HB Neighborhood Watch Program are always looking for ways to improve on the information provided to those who work and live in this great city. Technology and the way the police department tracks criminal activity is one of those areas which is continually evolving.

The Police Department has a desire to move the Neighborhood Watch Newsletter to a more interactive, electronic online format. This will improve on the accuracy of the information provided to the citizens and provide direct access to crime trends in your neighborhood.

For the past 45 years, the newsletter has served the community as the main source of information by either US Mail or local pick up locations. The total cost of this newsletter is approximately $31,000 annually between printing and postage. We currently print 11,500 copies and mail approximately 8,000 newsletters to households throughout HB. Your HB Neighborhood Watch Program has always paid the postage and other expenses with the money collected from your most generous donations.

We ask those readers who wish to continue receiving the Neighborhood Watch Newsletter via US Mail to complete the survey below so we can better evaluate how the newsletter will be distributed in the future.

Please circle the following questions and return to:
HB Neighborhood Watch Board
P O Box 5667
Huntington Beach, CA 92615

You may call in your survey to (714) 536-5933; if you reach a recording, please leave your answers via voicemail.

1) I would like to continue receiving the Neighborhood Watch Newsletter via U.S. mail. Yes No
2) I would like to be able to continue picking up the newsletter at my local market. Yes No

Can You Hear Me Now? (Better Business Bureau)

"Can you hear me now?"

These words might be the last you hear before you open yourself up to an insidious scam that’s plaguing the nation. According to the Better Business Bureau, if you answer "yes" to the crafty query, your recorded answer could be used against you “to sign you up for a product or service and then demand payment.” If you refuse to pay up, “the caller may produce your recorded ‘yes’ response to confirm your purchase agreement.” The truly tricky thing about this scam is that most anyone is likely to automatically respond “yes” in an effort to reassure a questioning caller. And sometimes “Can you hear me?” is replaced by another question designed to elicit an affirmative response (for instance, “Are you the homeowner?” or “Are you over 18?”). Recently, scammers have also been “identifying” themselves first—as government employees, cruise line reps, or home security agents (seemingly reputable, non-threatening entities). And it’s not just your voice that scammers are after; it’s also your digits. If you so much as press a button when prompted, you’re reassuring robocallers and other crooks that you have an active number.
CSLB Warns Homeowners to Do Their Homework Before Undertaking Storm Repairs

(Contractors State License Board, CSLB #17-02)

SACRAMENTO – This week Governor Edmund G. Brown Jr. declared a state of emergency in most counties throughout California in response to a series of severe storms that swept through the state. The Contractors State License Board (CSLB) reminds homeowners to take the proper steps before hiring a contractor to work on their home, and warns unlicensed contractors that with the declaration come stronger potential penalties.

Flood victims should do their research and be aware of construction laws so they don’t become victims a second time. The first step is hiring a licensed contractor. It is against California law to contract for home improvement or construction jobs, from debris removal to rebuilding, valued at $500 or more in combined labor and material costs without a state-issued contractor license.

CSLB is also reminding contractors that they must hold a valid license with CSLB, in the appropriate classification, in order to perform most work on homes and other structures damaged by the recent California flooding and mudslides. It is illegal and punishable as a felony to perform contracting work in a declared disaster area without a California contractor license. Punishment may include up to 16 months in state prison or a fine of up to $10,000.

“While many homeowners are eager to get storm damages repaired, we’d encourage them to be sure to do their homework,” said CSLB Registrar Cindi Christenson. “Taking a few minutes to check the CSLB website for a license, required insurance, and other information, could save you from becoming a victim of someone trying to take advantage of the situation.”

To become licensed, a contractor must pass a licensing examination, verify at least four years of journey-level experience, carry a license bond, and pass a criminal background check. A contractor’s license can be verified on CSLB’s website to see if it is active and in the correct classification for the work to be done. You can also check for legal complaints, the correct business name and address, and workers’ compensation insurance coverage for employees.

CSLB urges consumers to follow these tips when dealing with a building contractor:

• Hire only California state-licensed contractors and ask to see the license.
• Verify the contractor’s license with CSLB online or by calling toll-free at 1-800-321-CSLB (2752).
• Don’t rush into decisions and don’t hire the first contractor who comes along.
• Get three bids, check references, and get a written contract.
• Don’t pay more than 10 percent down or $1,000—whichever is less.
• Don’t pay cash, and don’t let the payments get ahead of the work.
• Contact CSLB if you have a complaint against a contractor.

CSLB, operating under the umbrella of the California Department of Consumer Affairs, licenses and regulates almost 290,000 contractors in California and is regarded as one of the leading consumer protection agencies in the United States. In fiscal year 2015-16, CSLB helped recover almost $41 million in ordered restitution for consumers.

Can You Hear Me Now? (continued from page 2)

Once you do that, you’ve signed yourself up for even more phone-stalking (a vicious cycle if we’ve ever heard of one). So what to do? Don’t pick up the phone if you don’t recognize the number. If you do pick up, don’t answer any questions from an unknown source. Make the words of Super Bowl halftime star Lady Gaga your motto when it comes to phone scammers: “Call all you want but there’s no one home. And you’re not gonna reach my telephone.”
HB police patrol areas are the North and the South. Patrol beats are 2-9. Your RD (Reporting District) is the half-mile square surrounding your home.

To locate your Beat and RD, please check the map on the back inside page. In most cases, your BEAT/RD is identified on your address mailing label.

APRIL IS SEXUAL ASSAULT AWARENESS MONTH
(National Sexual Violence Resource Center)

Crime reports
- Rape is the most under-reported crime; 63% of sexual assaults are not reported to the police. Only 12% of child sexual abuse is reported to authorities.
- The prevalence of false reporting is between 2% and 10%. For example, a study of eight U.S. communities, which included 2,059 cases of sexual assault, found a 7.1% rate of false reports.

Ways to prevent sexual violence
Risk-reduction approaches seek to decrease a particular person’s risk for victimization, such as self-defense classes. Some primary prevention approaches are:
- Be a role model for respectful relationships
- Speak up when hearing harmful comments or witnessing acts of disrespect or violence
- Create policies at workplaces and schools
- Talk with legislators and ask them to support prevention programs

Facts about sexual violence
Victims are never at fault for a sexual assault. Often, the media may unintentionally imply a victim is to blame by mentioning, for example, what the victim was wearing and if the victim was drinking. These comments lead to victim-blaming. People who sexually assault usually violate someone they know, and they often use coercion, manipulation or “charm.” They may use force.

Please join us in bringing awareness and education about Sexual Assault and Rape. Stand up and be the voice of someone that has been silenced.
