

Preschool is an important part of a child's development! It provides an opportunity and environment where children are able to play, create, explore, and interact with others. Through play children improve language skills, build confidence, develop friendships, and learn problem solving abilities.

Be sure to check out the Wee Folk and Little Folk preschool programs, found on page 7 of this SANDS. Daily classes offer meaningful, hands on activities where children learn and develop through play. This teaching style allows children to build, be creative, make choices, problem solve, and communicate in an environment that is engaging and nurturing.
