Help Make A Difference In Your Community!
Southern California Edison is warning customers of a potential new scam, which involves impostors passing out postcards with unauthorized use of SCE and CPUC logos about a so-called “COVID-19 relief program”.

The postcard tries to bait customers into setting up an in-person meeting with a “representative” to discuss their eligibility for six months of relief on their SCE bills. At this meeting, the impostor takes down the customer’s information, going through a year of utility statements before asking for a copy of their credit report.

For SCE customers who are suspicious about a potential scam, including any COVID-19-related postcards, emails or calls from people claiming to be with SCE, they should call the number listed on their SCE bills, the SCE’s customer service center at 1-800-655-4555, or they can visit sce.com/scamalert.
The Huntington Beach Fire Department wants to commend one of their very own, Firefighter Paramedic Drew DiPaola. Drew recently received the California State Firefighters’ Association Medal of Valor for his heroic efforts on March 8, 2020 that went above and beyond the call of duty.

When driving into work that morning, Drew selflessly put himself in harm's way as he came upon a serious traffic accident on the 22 freeway. Drew found a patient trapped within the vehicle and positioned himself between the vehicle and the guard rail to create a gap - ultimately, he was able to pull the unconscious victim to safety prior to it being engulfed in flames.

Drew is one of only six people in the State of California to receive the Medal of Valor this year. Drew’s actions off-duty are a direct representation of our entire OneHB team and we are honored to have you on our team.

Do you know where your nearest fire extinguisher is located?

This week your Huntington Beach Firefighters responded to a fire off Commerce Lane near Marina High School. Upon arrival, our crews were notified that the fire had been extinguished by the business' quick acting employees. These employees used six fire extinguishers in the business to contain the fire until our Firefighters arrival. These employees knew where their fire extinguishers were, knew how to use them, and saved the business from extensive damage!

When was the last time you checked where your nearest fire extinguisher is and do you know how to use it? Do your employees know how to use it? Just remember the P.A.S.S procedure!

P – Pull the Pin.
A – Aim the nozzle at the base if the fire.
S – Squeeze the lever.
S – Sweep from side to side.

A well maintained fire extinguisher is an effective tool to extinguish a small fire.

To learn more about fire extinguishers you can watch our video here: https://youtu.be/s7jYFkxYZAs

BE AWARE OF COVID-19 VACCINE SCAMS

The approval of COVID-19 vaccine distributions will inevitably increase scams. Scammers tend to use a variety of tactics to carry out their scams, which include, phone calls, texts, email, going door-to-door, posting on social media, etc. Don't be a victim of a scam; never give out your personal or financial information to anyone that you do not know.

Government and State officials will not call you to obtain personal information in order to receive the vaccines nor will you be solicited door to door to receive the vaccine. Currently there is no ranking for vaccine eligibility and you will not be asked to pay any money to be put on a list to receive the vaccine.

Always be cautious of unsolicited requests for personal, medical and financial information. Medicare will not call to offer COVID-19 related products, services, or benefit review.

Be suspicious of any unexpected calls or visitors offering COVID-19 tests, supplies or vaccines. If you receive a suspicious call, hang up immediately.

Do not respond to, or open hyperlinks in text messages about COVID-19 from unknown individuals.

Ignore offers or advertisements for COVID-19 testing, treatments or vaccines on social media sites. If you make an appointment for a COVID-19 test online, make sure the location is an official testing site.

Be aware of scammers pretending to be COVID-19 contact tracers. Legitimate contact tracers will never ask for your Medicare number, financial information, or attempt to set up a COVID-19 test for you and collect payment information for the test.

If you suspect of a COVID-19 fraud, report it immediately to https://oig.hhs.gov/fraud/report-fraud/
