Edinger Avenue Widening Project
The Edinger Ave. Widening Project began this month. It consists of widening the south side of Edinger Ave., between Parkside Ln. and Beach Blvd., in order to extend the existing eastbound right-turn lane. The scope of work includes: removal of concrete curb, gutter, sidewalk, driveway aprons, and landscaping; construction of asphalt pavement, concrete curb, gutter, sidewalk, driveway aprons; installation of new street lighting; relocation of existing utilities and Wells Fargo monument sign; reconstruction of private, on-site planter areas and replacement of landscaping; signing and striping. The project required acquisition of 1,050 sq. ft. and 168 sq. ft. of additional public right-of-way from the adjacent Wells Fargo bank and Arby’s restaurant, respectively. The project is being coordinated with the Marriott hotel currently under construction at the southeast corner of Edinger Ave. and Parkside Ln. Eastbound traffic impacts will vary as utility and roadway adjustments are made during construction.

Edinger Avenue Bridge (Orange County Public Works Project)
Located near Huntington Harbour at the west end of Edinger Avenue, the bridge spans over the Bolsa Chica Channel between the cities of Seal Beach and Huntington Beach. The contractor, Kiewit Construction, will replace the existing timber bridge over the Bolsa Chica Channel with a new bridge. It will be accomplished in five phases starting this month and completing within 24 months. The new bridge will span 340 feet and will be 48.5 feet wide, accommodating two 12-foot travel lanes, two eight-foot shoulders, and a five-foot wide sidewalk on the south side of the bridge. The profile of the bridge will be raised approximately six feet. Decorative lighting will be installed along the south bridge barrier railing to enhance nighttime safety. Rock material will be placed at the west bridge abutment for channel/slope protection along with drainage improvements to intercept water runoff from the bridge. The bridge will remain accessible 24/7 during all phases of construction. The new bridge will have a life expectancy of 75 years.

Main Street Paving
Main Street was paved from PCH to Acacia in two phases. The first phase included Main Street, from PCH to Acacia. The second phase included the continuation from Acacia to Adams Ave. After the cold milling, new asphalt was then placed, followed by new striping.
2017 City Drinking Water Quality Report Now Available

Have you ever wondered what is in your glass of water or where it comes from? Well that information and more is included in the 2017 City of Huntington Beach Drinking Water Quality Report, which is now available. As in previous years, the City water system continually meets or exceeds all State and Federal standards on drinking water. Regulations require water agencies to prepare an annual water quality report, sometimes called a Consumer Confidence Report, and distribute it by July 1. The City has completed the 2017 Report and is currently mailing it to all residential and commercial water users throughout City of Huntington Beach. Hard-copies will also be available at public counters at City Hall, City Libraries, and the Senior Center in Central Park. An electronic copy is also available on the City’s website at: http://www.huntingtonbeachca.gov/Government/Departments/Public Works/utilities/. For further information please contact the Public Works Utilities Office at (714) 536-5921.

TUNE IN JUNE 21 TO SEE MASTERCHEF IN ACTION IN SURF CITY!

Surf City and its first-class Marine Safety team will be prominently featured on the June 21 broadcast of Masterchef on FOX TV. On August 31, 2016, the entire cast and crew created an impressive, surf-themed makeshift kitchen on the sand to conduct the first field challenge for its Season 8 contestants under the watchful eyes of hosts Gordon Ramsay, Christina Tosi and Aaron Sanchez. This isn’t the first time Masterchef has come to the City, but it certainly was a far more elaborate setup than in previous seasons, and the production team was very happy with their experience. The City’s filming program, greatly enhanced by the addition of the online application and approval process in 2016, has continued to garner the reputation of being a film-friendly community. This has, in turn, attracted scores of high-quality productions to Huntington Beach first when considering locations.

No appointment or RSVP is necessary.

The City partners with the Fair Housing Foundation to provide services to the community related to fair housing issues and is also available by phone Monday through Friday at (800) 446-3247 or on a walk-in basis at their offices in Santa Ana and Long Beach. 1st Veterans “Operation Surf” in Huntington Beach a Success!

The life-changing, global program helps Vets overcome emotional/physical wounds, as well as brings healing through surf, came to HB for the first time June 6-12.

Last week, the City participated in Operation Surf — a recreational, rehabilitative surf clinic that provided an epic, life-changing experience to 15 men and women who were injured while serving in various branches of the U.S. military. The week kicked off when the wounded heroes arrived at the airport and were welcomed by a contingent of the Huntington Beach Police Department who provided an official escort for their journey to their hotel in Huntington Beach. The heroes were welcomed at the Paséa Hotel and Spa by local volunteers and supporters with a brief ceremony. In addition, many of our officers volunteered throughout the week.

Following the opening, the week-long clinic on the beach included special surf instruction from some of Amazing Surf Adventure’s elite team of adaptive athlete world class coaches in partnership with local Huntington Beach’s Bill Sharp Surf School. The week concluded with the group of Vets taking home memories that will last a lifetime!
