POLICE DEPARTMENT

LEAD HB

Do you have a student age 14-17 years old who is interested in learning more about becoming a leader? Each year, the Huntington Beach Police Department holds a weeklong youth leadership development program. The curriculum includes hands-on activities and also provides field trips for learning and community service. Your child will not only be taught leadership from members of our police department and the community, but also from experts in the field of leadership. They will also learn about community service, servant based leadership, and even how to deal with peer pressure and destructive decisions with alcohol, drugs, and social media.

This year's LEAD HB program will be held from June 25-June 29, with a graduation ceremony on June 30. We are looking for high-achieving students who have strong GPA's, community involvement, and involvement in extracurricular activities that hope who further their career after high school. Applications are available at: <https://www.huntingtonbeachca.gov/government/departments/pd/community-programs/>. Applications will be accepted until April 30.

FIRE DEPARTMENT

VOLUNTEER TRAINING CLASS GRADUATES!

Created in 1991, the Huntington Beach Fire Department's CERT (Community Emergency Response Teams) Program is a FEMA (Federal Emergency Management Agency) endorsed training program that prepares you to help yourself, your family, your neighbors and your community in the event of a disaster. CERT volunteers also help the City by responding with sand bags during flooding, staffing first aid booths during large events, and assisting the Fire Department with volunteers during events and emergencies.

CERT held its spring training class March 9-11. After completing a 20-hour instructional curriculum, 63 people graduated. The class included sessions on personal, home, and family preparedness, disaster first aid and triage, disaster psychology, fire suppression, light search and rescue, and terrorism awareness. Current CERT volunteers were the instructors and helpers for the class and acted as 'victims' in the search and rescue exercise.

For information about the CERT Program, visit www.huntingtonbeachca.gov/cert or leave a message at 714-536-5974.

COMMUNITY SERVICES DEPARTMENT

Pee Wee & Junior Soccer

Looking for a fun outlet for positive recreation for your little athletes? Pee Wee (3-5 years) and Junior (6-8 years) soccer are a semi-competitive introduction to soccer for boys and girls where they will learn the fundamentals of the sport through game-based drills, hands-on instruction, and scrimmages. Throughout the program the children will also discover the six tenants of Competing with Character, including respect, sportsmanship and teamwork. The program will take place under the lights at the Central Park Sports Complex on the artificial turf soccer fields. Participants should wear regular sneakers and athletic shorts/

pants. An HB recreation jersey and all other soccer equipment will be provided. The programs will be held on Tuesdays and Thursdays at 4 p.m., 5 p.m., and 6 p.m., and Saturdays at 9 a.m., 10 a.m., 11 a.m. starting the week of April 14. Register now in-person at any community center or on the 5th Floor at City Hall, or online at HBSands.org.

Branch Library Partners with the Energy Coalition for Children’s Educational Program Volunteers Needed!!

The Oak View Branch Library will host a special program on energy efficiency intended for elementary school children, called the “Out-of-School Time Energy Program” or OSTEP. The OSTEP program is scheduled to launch on April 11, and will take place every Wednesday from 3:30-4:30 p.m., running through June 20. Focused on environmental and sustainability concepts with 19 hands-on STEM lessons, the program will teach students to utilize critical-thinking and problem-solving skills to address the challenges at hand.

Any adults interested in volunteering their time assisting with lesson implementation are encouraged to call Ashley Hoover at 949-732-1093 or e-mail her at ahoover@energycoalition.org. For more information on the program, please contact Claudia Locke at 714-375-5068 or clocke@surfcity-hb.org. All workshop meetings will be held at 17251 Oak Lane in Huntington Beach.

PUBLIC WORKS

Magnolia and Brookhurst Bridges

These two bridges are currently undergoing preventative maintenance to extend their useful life. These efforts consist primarily of removal and replacement of the concrete barriers and chain link railing; removal and patching of unsound concrete at the bridge bents and columns; the replacement of missing rock slope protection in the channel; and appurtenant work as required. This work requires one lane of traffic in each direction be closed in each phase. Work is being performed by the same contractor which is expected to be completed by July.

Water Well 9

Water Well No. 9 (Well 9) is located northwest of the intersection of Warner Avenue and Riverbend Drive. Well 9, due to presence of subtle odor from dissolved Hydrogen Sulfide found from this groundwater source, has reduced production to operate at only 50 percent capacity.

Through in-depth analysis studies, the City's Public Works Engineering and Operation Department staff have identified a natural treatment process using Granular Activated Carbon (GAC) filter media, which naturally consumes the dissolved Hydrogen Sulfide. This process is unique in that it allows the native naturally occurring bacteria found in the local raw groundwater to be attached to the filter media making the treated water potable through a standard disinfection procedure of adding low doses of Chlorine and Fluoride.

The Well 9 project is currently six months into construction and the primary components of the odor treatment system consisting of six large diameter steel tanks that house the GAC filter media have been delivered and installed. The project will make all necessary improvements to the site, including utilities upgrade, a new well building, access gate, block wall, landscaping, onsite repaving, and other improvements to accommodate the new GAC filtration treatment system. To date, the project has not encountered any delays and is on schedule to be completed by September.
